

CURRICULUM VITAE

FRANK E. MUSIEK, Ph.D.

79 Dog Lane
Storrs, CT 06268

Office Address:

Communication Sciences
Neuroaudiology Lab
University of Connecticut
850 Bolton Road, Unit 1085
Storrs, CT 06269-1085

Marital Status: Married to Sheila Musiek
Children: Erik, Justin

EDUCATION:

<u>Institution</u>	<u>Degree</u>	<u>Major</u>
Edinboro College	B.S.	Biology/Speech
Kent State University	M.A.	Audiology
Case Western Reserve	Ph.D.	Audiology/Neurophysiology

ACADEMIC AND PROFESSIONAL APPOINTMENTS:

Professor of Audiology and Director of Auditory Research Department of Communication Sciences, University of Connecticut	2001-present
Professor of Otolaryngology (Surgery Department) School of Medicine, University of Connecticut	2001-present
Visiting Professor, Neurology, Department of Medicine and Audiology (Department of Surgery), Dartmouth Medical School, Lebanon, NH	2005-present
Professor of Otolaryngology and Audiology (Department of Surgery) Dartmouth Medical School, Lebanon, NH	1987-2001
Professor of Neurology (Department of Medicine) Dartmouth Medical School, Lebanon, NH	1987-2001
Faculty and Steering Committee, Program in Neuroscience Dartmouth College, Hanover, NH	1978-2000
Director of Audiology Dartmouth-Hitchcock Medical Center, Lebanon, NH	1975-2001
Associate Professor of Otolaryngology & Audiology (Department of Surgery) and of Neurology (Department of Medicine), Dartmouth Medical School, Lebanon, NH	1982-1987
Assistant Professor of Otolaryngology & Audiology (Department of Surgery) and of Neurology (Department of Medicine), Dartmouth Medical School, Lebanon, NH	1976-1982

Adjunct Appointments:

Adjunct Associate Professor of Psychology, Dartmouth College 1982-1987
Adjunct Professor, Communication Disorders, University of Massachusetts
Amherst, MA 1987-present

Professional:

Licensed in Connecticut to practice Audiology

SPECIAL TRAINING RELATING TO AUDIOLOGY:

Clinical Electronystagmography (ENG), University Hospitals, 1974 (Cleveland, Ohio)
Temporal Bone Anatomy, Inner Ear Laboratory, Cleveland Hearing and Speech Center, 1973
Post doctoral neuroanatomy (Dr. Mosenthal) Dartmouth Medical School 1986

TEACHING EXPERIENCE AND DIRECTED EDUCATIONAL PROGRAMS:

The Vestibular System: Clinical Aspects, University of Connecticut, Storrs, CT, 2005-present
The Neuroscience of Auditory Disorders, University of Connecticut, Storrs, CT, 2005-present
Electrophysiologic Techniques and Interpretation, University of Connecticut, Storrs, CT, 2003-present
Physiological/Psychological Acoustics, University of Connecticut, Storrs, CT, 2002-present
Central Auditory Disorders, University of Connecticut, Storrs, CT, 2002-present
Audiological Assessment, University of Connecticut, Storrs, CT, 2002-2003
Audition, University of Connecticut, Storrs, 2002-2003
Auditory Evoked Potentials, SUNY at New Paltz, NY, 1999
Diagnostic Audiology, University of Connecticut, Storrs, CT, 1998, 1999, 2000
Neuroanatomy of the Human Central Auditory System, Dartmouth-Hitchcock Medical Center,
(external course), 1991-1997
Auditory and Vestibular Physiology (Physiology Course), Dartmouth Medical School, 1986-1994
Visiting Professor, Western Washington University, (course on Central Auditory Function),
1986, 1988
Visiting Professor, Dalhousie University, (courses on ABR and Site of Lesion Assessment),
1983, 1985, 1989, 1992, 1994, 1995
Hearing, Auditory Perception and Learning, University of New Hampshire (Extension), 1981
Sensory Psychology (Audition), Dartmouth College, Psychology Department, 1978-1995
Neuroanatomy Course, Section on Auditory Anatomy and Deafness, Dartmouth Medical School,
1978-1983
Assessment of Auditory and Vestibular Disorders (elective), Dartmouth Medical School, 1977-
1978
Scientific Basis of Medicine Lectures (Neurology), 1976-1999
Auditory Evoked Response in Otology and Audiology, (International Symposium, Course
Director) August 8-9, 1980
Directed and designed courses for Industrial Audiology, 1976 and 1983
Rotating medical students and residents through ENT, 1976-1999

Taught or assisted in teaching: Introduction to Audiology, Special Auditory Tests, and Research Methods, Case Western University, Cleveland, OH, 1974-1975

Organized, Directed and Lectured: University of Connecticut

Created Audiology Grand Rounds, 2002

Created Lectures in Auditory Disorders and Sciences (LADS), 2002

Directed Summer Symposia in Audiology:

Innovations in Audiology, University of Connecticut, July 15, 2006.

Challenging Issues in Central Auditory Processing Disorders, University of Connecticut, July 30, 2005

Auditory Processing Disorders: New Trends, University of Connecticut, August 6-7 2004

Current Perspectives on Auditory Processing Disorders and ADHD, August 10-11, 2001

Advances in Auditory Processing, Dartmouth Hitchcock Medical Center, July 21-22, 2000

New Perspectives on Diagnosis and Treatment of Tinnitus, (Co-Director with Dr. Weider),
Dartmouth-Hitchcock Medical Center, 1999

Management of CAPD, Dartmouth-Hitchcock Medical Center, 1998

Amplification Applications for Adults & Children: Update, Dartmouth-Hitchcock Med. Center, 1997

Habilitation of Central Auditory Processing Disorders, Dartmouth-Hitchcock Medical Center, 1996

Otoacoustic Emissions in Clinical Applications, Dartmouth-Hitchcock Medical Center, 1995

Developing a Service Program for the Evaluation and Management of Individuals with CAPD,
Dartmouth-Hitchcock Medical Center, July 22-23, 1994

Amplification 1993: Programmable Hearing Devices, Dartmouth-Hitchcock Medical Center,
August 13, 1993

Practical Aspects of Modern Audiology, Dartmouth-Hitchcock Medical Center, July 24-25, 1992

Recent Advances in Audiology, Dartmouth-Hitchcock Medical Center, July 26-27, 1991

Introduction to Assessment and Management of Central Auditory Disorders, Dartmouth-
Hitchcock Medical Center, June 28-29, 1990

Intermediate/Advanced Course in Auditory Evoked Potentials, Dartmouth-Hitchcock Medical
Center, June 25-26, 1990

Practical Applications of the Auditory Brainstem Response, Dartmouth-Hitchcock Medical
Center, August 5-6, 1998 and July 28-29, 1989

Thesis Committees:

1. Jeffrey Weihing, Binaural Middle Latency Response in Noise (BMIN) – The Influence of Age Related Changes in (Central) Auditory Processing. Major Advisor, May 2009.
2. Jennifer Paulovicks, Plasticity related to Amplification as Measured by Auditory Evoked Potentials. Major Advisor, May, 2009.
3. Jennifer Shinn, The Auditory Steady State Response in Individuals with Neurological Insult of the Central Auditory Nervous System. Major Advisor, May 2005.
4. Peter Scheifele, Lombard Effect in Beluga Whales. Co-Major Advisor, University of Connecticut, May 2004.

5. Kerry Gudlewski, Conventional and Maximum Length Sequence ABR Thresholds and Rate Comparison for Ipsilateral and Contralateral Recording Conditions. University of Connecticut, 2002.
6. Daniel E.Huddleston, The Dichotic Rhyme Task: A Clinical Investigation of its Useful-ness in Central Auditory Assessment. Dartmouth College, Hanover, New Hampshire, (Honors Thesis), 2000.
7. Jennifer B. Shinn, Brief Tone Discrimination of Young Adults with Reading Disorders. East Carolina University, Greenville, North Carolina, 2000.
8. Deborah W. Moncrieff, An fMRI Study on Dichotic Listening and Hemispheric Lateralization in Dyslexic Children. University of Texas at Dallas, Texas, 1999.
9. Lisa Jane Wheadon, The Influence of Auditory Training on Behavioral and Electro-physiological Test Measures in Children with Central Auditory Processing Disorders. University of Auckland, New Zealand, 1999.
10. Jeff Owen, Multimedia Correlation: Theory & Application. Dartmouth College, Hanover, New Hampshire, 1998.
11. Tony Sahley, The Role of Endogenous Cochlear Opioids on Lateral Efferent Olivocochlear Modulation of Auditory Nerve Activity in the Chinchilla. Dartmouth College, Hanover, New Hampshire, 1992.
12. Karen Donnelly, Hydrocephalus and Hearing: The Relationship Between the Auditory Brainstem Response and Hearing Sensitivity. University of Texas at Dallas, Dallas, Texas, 1992.
13. Joseph V. Rutkowski, Mechanisms of Indomethacin-Induced Ototoxicity (qualifying exam committee). Dartmouth College, Hanover, New Hampshire, 1983.
14. Steve Bornstein, Dichotic Pattern Perception in Normal and Impaired Ears. Outside consultant, University of Connecticut, Storrs, Connecticut, 1979.
15. Wes Jordan, Effects of Mesencephalic Reticular Formation and Auditory Pathway Lesions on Long- and Short-Term Habituation Processes in the Rat. Dartmouth College, Hanover, New Hampshire, 1979.
16. Jay Lubinski, Auditory Temporal Sequencing for Normal and Hearing Impaired Subjects. Case Western Reserve University, Cleveland, Ohio, 1976.

Directed Independent Research Studies:

1. Measuring Traveling Wave Velocity Using ABR. Samantha Glover, University of Connecticut, 2009.
2. Temporal Integration and Sensorineural Hearing Loss. Samantha Glover, University of Connecticut, 2009.
3. The P1 Evoked Potential. Alison Friend, University of Connecticut, 2009.

4. Interaural Intensity Difference Performance in Normals. Kristina Kerwin, University of Connecticut, 2008.
5. Test Efficiency of the Central Auditory Test Battery. Megan Zapulla, University of Connecticut, 2008.
6. Contralateral masking effects on the ASSR. Brooke Soderstrom, University of Connecticut, 2005.
7. Central Auditory Function and Dichotic Listening. Steve Hiltey, Dartmouth Medical School, 1992.
8. Hearing Loss in Multiple Sclerosis. Jim Case, Neurology resident, Dartmouth-Hitchcock Medical Center, 1987.
9. Auditory Findings in a Basilar Artery Aneurysm. Terry Schniederman, ENT resident, Dartmouth-Hitchcock Medical Center, 1985.
10. Neurological Aspects of Audition. Mitchell Ross, Neurology resident, Dartmouth-Hitchcock Medical Center, 1984-1985.
11. The Middle Latency Evoked Response: The Effect of Intensity. Karen Donnelly, Clinical Research Fellow, Dartmouth-Hitchcock Medical Center, Fall 1982.
12. Evoked Response Audiometry. Gene McMurry, Surgery resident, Dartmouth-Hitchcock Medical Center, 1981-1982.
13. Aural Rehabilitation. Don Berry, University of Rhode Island, 1978.
14. Visual and Auditory Processing Tasks in Dyslexics. Bill Jack, Psychology Department, Dartmouth College, 1980.
15. Auditory Electrophysiology (one term). Steve Murphy, Engineering Department, Dartmouth College, 1979.
16. Cochlear Physiology (two terms). John Gavrin, Dartmouth Medical School, 1978-1979.
17. Psychoacoustics (one term). Bart Gawboy, Doctoral candidate, Engineering Department, Dartmouth College, 1979.

Research Fellowship Program – Neuroaudiology: (Founder & Director)

1. Brian O’Hara, M.D., Ohana Developmental Pediatrics, Honolulu, HI (2001)
2. Pamela DeWitt, University of Connecticut, Storrs, CT (part time) (2000)
3. Doris Bamiou, Great Ormond Hospital, London, UK (part time) (2000)
4. Cynthia McCormick, University of Utah, Salt Lake City, UT (1998)
5. Eliane Schochat, Sao Paulo University, Sao Paulo, Brazil (1996-1997)
6. Brenda Berge, National Institute of Health, Bethesda, MD (1996)
7. Lisa Grant, Ontario, Canada (1996)
8. Timi Kelley, VA Hospital, Seattle, WA (1995)
9. Greg Noel, James Paton Memorial Hospital, Gander, New Foundland (1995)
10. Terri Bellis, Colorado School for the Deaf & Blind, Colorado Springs, CO (1994)

11. Balu Kalayam, Cornell University, New York, NY (1993)
12. Jane Baran, University of Massachusetts, Amherst, MA (1993)
13. Wei Wei Lee, MD, Medical College of Virginia Hospitals, Richmond, VA (1992)
14. Martha Ann Ellis, Teachers College Columbia University, New York, NY (1992)
15. Cynthia McCormick, University of Tennessee, Knoxville, TN (1991)
16. Ray Hurley, University of Rhode Island, Kingston, RI (1990-1991)
17. Steven Bornstein, University of New Hampshire, Durham, NH (1990)
18. Somia Tawfik, Ain Shams University Hospital, Cairo, Egypt (1990)
19. Mary Ellen Bromley, Michigan State University, East Lansing, MI (1989)
20. Anthony Sahley, University of California, San Francisco, CA (1989)
21. Robert Froke, University of South Dakota, Aberdeen, SD (1989)
22. Lloyd Lamb, University of New Mexico, Albuquerque, NM (1989)
23. Walter Green, Dalhousie University, Halifax, Nova Scotia (1988)
24. Faith Pellett, Boston University, Boston, MA (1985)
25. Suzanne Verkest, Dartmouth-Hitchcock Medical Center, Hanover, NH (1984)
26. Dorothy Wavrek, Hahneman Medical Center, Philadelphia, PA (1983)
27. Jane Baran, University of Massachusetts, Amherst, MA (1983)
28. Karen Donnelly, Callier Hearing and Speech Center, Dallas, TX (1982)

Post Doctoral Students:

1. Doris Bamiou, Queen's Square, London, England, 2003-2005

GRANTS:

Internal:

Performance of Learning Disabled Children on Competing Speech Tasks (received Henry Heyl Fund Award) Hitchcock Foundation (1985)

Central Auditory Evaluation in Patients with Brain Lesions, DMS Basic Research and Science Grant (1978-1980)

Effects of Tympanic Membrane Perforation on ENG Results (1976-1978)

Electronystagmographic Results from Patients with Total Unilateral Labyrinthectomies (1976-1978)

Perception of Temporal Auditory Patterns, Hitchcock Foundation (1976-1979)

Outside Agencies:

Hearing Impairment in HIV-infected and HIV-TB-coinfected individuals in Tansania, co-investigator (with Jay Buckey P.I.), NIH (NIDCD), \$3,714,916, resubmitted January, 2009

DHA Supplementation During Pregnancy: Effect on Auditory Function of Young Children, co-investigator with C. Lammi-Keefe, \$181,871, submitted

Neural Maturation in Children with Persistent Developmental Stuttering: Electrophysiological Studies of Central Auditory Pathway Activation from Brain Stem to Cortex , co-investigator with L. Max, Thrasher Research Fund, \$218,742, 2005-2008

Dynamic Assessment of Hearing Aids, NIH (co-investigator), 2002-2003

Lectures in Audiology: For Support of Continuing Education and Research in Audiology. Little Oak Hill Foundation, 2000-present

Otoacoustic Hearing Assessment of Space Station Crews, co-investigator with J. Buckey and R. Kline-Schoder. NASA, 2001

The Role of Dynorphins in the Auditory Periphery co-investigator with T. Sahley (PI), C. Chernicky, and R. Nodar. Funded from NIH, (NIDCD), 1997-1999

The Development of Distortion Product Otoacoustic Emissions as a Hearing Screening Technique. Welch-Allyn, Inc., 1997-present

Possible Link to the Treatment of Tinnitus: The Role of Endogenous Opioid Peptide Neuromodulators Within the Lateral Efferent Olivocochlear System. Deafness Research Foundation. Co-investigator with Drs. Sahley, Nodar, Hughes and Kinney, 1992-1993

The Effect of Active and Passive Listening on the P300 in Normals and CVA Patients, Co-investigator with Lori Charette and Renee Weiner. Funded by the Gaylord Foundation, 1991-1994

Auditory Brainstem Response Measures of Olivocochlear Efferent Function. III. Funded from Deafness Research Foundation, 1991-1992

Auditory Brainstem Response Measures of Olivocochlear Efferent Function. II. Funded from Deafness Research Foundation, 1990

Auditory Brainstem Response Measures of Olivocochlear Efferent Function. I. Funded from Deafness Research Foundation, 1989

Comparison of the Audiant with Other Contemporary Amplifying Devices, Xomed, Inc., 1987

Field Research Study on GSI 50, 55 Evoked Potential Units, Grason Stadler, Inc, 1987

Auditory Evoked Potentials (Auditory Brainstem, Middle Latency, and Late Response) Research. Nicolet Instrumentation Company (grants for instrumentation), 1978-1984

Auditory Brainstem Response and Hearing Aid Evaluation, Education in Auditory Research (EAR) Foundation. Otoscope Award for Outstanding Proposal, 1982

Case Western Reserve University, Graduate Alumni Fund Award for Research on Auditory Pattern Perception, 1974-1975

NIH Center Grant involving Case Western Reserve University and the Cleveland Hearing and Speech Center for study of various auditory disorders (involvement was research on auditory pattern perception), 1974-1975

Grant Consultant:

Central Auditory Assessment and Head Injury, Portland, Veteran's Administration, Portland, Oregon, 2008-present

Rehabilitation of Patients with Multiple Sclerosis, Portland, Veteran's Administration, Portland, Oregon, 2008-present

Otoacoustic Emissions and Screening Hearing of Astronauts, Jay Buckey, Dartmouth Medical School, 2006

Auditory Processing Disorders in Children, Carol Miller, Penn State University, 2004

Passive and Active Noise Control, Creare, Hanover, NH, 2001-present

HONORS:

- The 2007 James Jerger Career Award for Research in Audiology, April 2007.
- Best articles in Audiology for 2007 selected by The Hearing Journal. Musiek, F., Ballingham, T., Liu, B., Paulovicks, J., Swainson, B., Tyler, K., Vasil, K., Weihing, J. (2007) Auditory hallucinations: An audiological perspective, *Hearing Journal*, 60, 32-52.
- Best articles in Audiology for 2007 selected by The Hearing Journal Shinn, J., and Musiek, F. (2007) The auditory steady state response in individuals with neurological insult of the central auditory nervous system, *JAAA*, 18:826- 835.
- Erskine Fellowship, Canterbury University, Christchurch, New Zealand, Spring 2008.
- American Academy of Audiology, James Jerger Research Award, 2007.
- Book of the Year Award for Language, Speech and Hearing 2007. Handbook of (Central) Auditory Processing Disorder, Volume I: Auditory Neuroscience and Diagnosis by Frank E. Musiek and Gail Chermak and Handbook of (Central) Auditory Processing Disorder, Volume II: Comprehensive Intervention by Gail Chermak and Frank E. Musiek. Awarded by The Essential Language, Speech and Hearing Bookshelf (Doody Enterprises, Inc.), March 2008.
- Best Special Issue 2004 "Hearing & The Brain," *Journal of the American Academy of Audiology*, 15:, Feb. *Selected by Hearing Journal*, 58:33, 2005.
- Best Articles in Aural Rehabilitation, 2004, Assessment and Remediation of an Auditory Processing Disorder Associated with head Trauma, *Journal of the American Academy of Audiology*, 15:117-133, 2005, *Selected by Hearing Journal*, 58:33, 2005
- "Friends for Ever" Award, Institute for Auditory Physiology and Pathology, Presented at the VIIIth International Conference for Diagnosis and Treatment of Auditory Disorders, Warsaw, Poland, May 20, 2005.
- Best Articles of 2003; F. Musiek, (2003). What Can Acoustic Startle Reflex Tell Us? *Hearing Journal* 56:55. Selected by the *Hearing Journal* "Best of 2003 Diagnostic Audiology" *Hearing Journal*, 57:19-21, 2003.
- Selected for Best of Audiology Literature, (1999) by *The Hearing Journal*, 53:5 (2000) for: Chermak, G.D., Hall, J.W., Musiek, F.E. Differential Diagnosis and Management of Central Auditory Processing Disorder and Attention Deficit Hyperactivity Disorder. *JAAA* 1999; 10:289-303 and for Musiek, F.E., Hanlon, D.P. Neuroaudiological Effects in a Case of Fatal Dimethylmercury Poisoning. *Ear Hear* 1999; 20:271-275.
- Selected as the 11th Dewar Holmes Lecturer in Communication Disorders, Charleston Speech & Hearing Center, 1996
- Baylor College of Medicine, James Jerger Lecturer, 1996
- Edinboro University Outstanding Alumni Award (Natural Sciences), 1995
- National Institute of Health Consensus Conference on Acoustic Tumors, Lecturer, December 11-13, 1991
- Case Western Reserve University's 50th Anniversary Lecturer in Audiology, 1990
- Case Western Reserve University, Distinguished Alumni, Dept. of Communication Sciences, 1990
- Editor's Award, *Ear and Hearing*, 1987
- Elected Fellow of the American Speech, Language and Hearing Association, 1986
- Henry Heyl Research Award, Hitchcock Foundation, 1985

Award for Outstanding Achievement in Speech-Language Pathology and Audiology from the
New Hampshire Speech-Language and Hearing Association, 1983
The Otoscope Award for Outstanding Research Proposal, The EAR Foundation, Nashville,
Tennessee, 1982

Professional Affiliations:

American Academy of Audiology (Founding Member)
American Auditory Society
American Speech, Language and Hearing Association
American Neurotology Society
Acoustical Society of America
Connecticut Speech and Hearing Association
Deafness Research Foundation (Centurion Club)
Hitchcock Foundation
New Hampshire Society of Otolaryngology and Maxillofacial Surgery (Honorary Member)
The Prosper Meniere Society
Association for Research in Otolaryngology

COMMITTEES:

Outside Review for University Promotion Committees:

Boston University, 2008
University of London (2004)
University of South Dakota (2004)
Mayo Medical School, Department of Otolaryngology (1998)
University of Massachusetts, Dept. of Communication Disorders, Amherst, MA (1988; 1994)
University of New Hampshire, Department of Communication Disorders (1993)
Wayne State University, Sch. of Medicine, Dept. of Audiology, Detroit, MI (1990, 1992)
University of Northern Iowa, Dept. of Communication Disorders, Cedar Falls, IA (1987)
University of Buffalo, Department of Communication Disorders, Buffalo, NY (1987)
Dalhousie University, Department of Communication Disorders, Halifax, Nova Scotia (1986)
University of Michigan, Department of Otolaryngology, Ann Arbor, MI (1985)
Western Ontario University, Communication Disorders Dept., London, Ontario, Canada (1985)
Cleveland State University, Communication Disorders Department, Cleveland, OH (1985)
University of Texas Health Science Center, Dept. of Otolaryngology, Houston, TX (1984)

Other Committees (Internal):

University Curriculum Committee, 2007-present
Continuing Education, University of Connecticut (2004 - present)
Space Committee, University of Connecticut (2002-present)
Promotion, Tenure and Reappointment Committee, University of Connecticut (2001-present)
Cognitive Neuroscience Program Committee, Dartmouth College (1989-2001)
Promotions Committee, Department of Surgery, Dartmouth-Hitchcock Medical Center (1987-2001)

Steering Committee, Program in Neurosciences, Dartmouth College (1978-2001)
Helmuth Schumann Lectureship Committee, Hitchcock Foundation (1986-1988) (1990-1994)
Ad Hoc Committee on Program in Cognitive Neuroscience, Dartmouth College (1989)
Dartmouth Medical School Search Committee (Physiology) (1988)
Tiffany Blake Scholarship Committee, Hitchcock Foundation (1986-1990, 1995)
Hitchcock Foundation Board of Trustees (1985-1995)
Selection Committee for Beltone Distinguished Teaching Award in Audiology (1985, 1986)
Ad Hoc Committee of New Hampshire Committee of EAR Conditions (1985-1987)
Ad Hoc Committee of ASHA for publications (1984)
Section Representative, Committee on Graduate and Continuing Education, Dartmouth-Hitchcock
Medical Center (1979-1982)

Other Committees (External):

American Speech-Language and Hearing Association Committee on Preferred Practice Patterns
(2006-2007)
AAA Task Force on CAPD, Chair, (2007-present)
ASHA Preferred Practice Patterns Committee (2005 – present)
ASHA Conference Subcommittee on Central Auditory Processing Disorders, Chair (2006)
ASHA Committee on Central Auditory Processing Disorders (2002 -2005)
American Academy of Audiology Committee on Central Auditory Processing Disorders (2005 –
present)
ASHA Committee on Preferred Practice Patterns (2005)
Program Sub Committee (Chair) ASHA (2006)
Founder, The Pathways Society (2004)
Program Sub Committee, American Academic of Audiology (2003-2004)
American Neurotology Society Committee on Hearing (2001-2005)
Journal of the American Academy of Audiology Publication Committee (1997-present)
Hearing & Deafness International Research Group, Linkoping, Sweden (1997)
Committee on Continuing Education, American Academy of Audiology (1993-2004)
Program Committee, American Auditory Society (1986-1995) Chairman (1987) Co-Chairman
(1995-2002)
Consensus Committee on CAPD, Dallas, TX (2000)
New Hampshire Committee on Newborn Screening (1999-2001)
Data & Safety Committee on Autoimmune Inner Ear Disorders, NIH (1997-2001)
Au.D. National Standards Council (1995-1997)
Committee on Honors for the American Academy of Audiology (1994-1998)
ASHA Task Force on Central Auditory Processing Disorders (1993-1995)
Ad Hoc Committee on Honors or The American Academy of Audiology (1992, 1996)
American Academic of Audiology, Education Committee (1988-1990, 2001-2004)
Awards Committee, American Auditory Society (1988-1997)
Advisory Board, American Academy of Audiology (1988)
Executive Committee, American Auditory Society (1987-1996)
Education Committee, American Academy of Audiology (1987-present)
Board of Representatives, American Academy of Audiology, Charter Member (1987-1990)
American Speech and Hearing Association Committee on Scientific Affairs (1978-1983)
New Hampshire Hearing Aid Advisory Board (two terms (1978-1983)

TESTS DEVELOPED FOR AUDIOLOGY:

1. The Gaps in Noise (GIN) Test (2005)
2. The Duration Pattern Test (1990)
3. The Frequency Pattern Test (granted from M. Pinheiro) (1971, 1987)
4. The Dichotic Digits Test (1983)

INVITED LECTURES AND SEMINARS:

1. Musiek, F. A 3-D Tour of the Central Auditory System. Key note speaker. Education Audiology Association. New Orleans, July, 2009.
2. Musiek, F. Evoked Potentials and TBI, National V.A. Conference on Effective Practice of Audiology and Speech-Language Pathology for TBI. Washington D.C., January, 2009.
3. Musiek, F. Special topics in neuroaudiology: Interhemispheric functions: from basics to applications, presented at the Soundwave Symposium, Rady Childrens' Hospital, San Diego, February 2009.
4. Musiek, F. A 3-D Tour of the Central auditory System - Keynote address. presented at the Soundwave Symposium, Rady Childrens' Hospital, San Diego, February 2009,
5. Musiek, F. The Studebaker Lecture for 2009 at Memphis University. A review of CAPD. Memphis, TN, March, 2009
6. Musiek, F. & Chermak, G. (Central) Auditory Processing Disorder: Foundations for Practice and Research, Trondheim, Norway, October 12-15, 2008.
7. Central Auditory Processing: The Basics, Coimbra University, Coimbra, Portugal, April 17, 2008.
8. Case Studies, Coimbra University, Coimbra, Portugal, April 18, 2008.
9. A 3-D Tour of the Central Auditory System, Conference on Central Auditory Processing: Future Directions, Latrobe University, Australia, March 15-16, 2008.
10. The Insula's Role in Auditory Processing, Conference on Central Auditory Processing: Future Directions, Latrobe University, Australia, March 15-16, 2008.
11. Clinical Application of Temporal Processing Tests, Conference on Central Auditory Processing: Future Directions, Latrobe University, Australia, March 15-16, 2008.
12. Using the Dichotic Interaural Intensity Difference (DIID) for Auditory Training, Conference on Central Auditory Processing: Future Directions, Latrobe University, Australia, March 15-16, 2008.
13. The Erskine Fellowship Lecture, A 3-D Tour of the Auditory Brain, Canterbury University, Christchurch, New Zealand, March 19, 2008.
14. Clinical Application of the GAPS in Noise (GIN) Test, Phonak U. Sumposium, August 8-11, 2007.
15. The Role of the Insula in Auditory Function, Phonak U. Sumposium, August 8-11, 2007.

16. Clinical Application of the MLR, Phonak U. Sumposium, August 8-11, 2007.
17. A 3D Tour of the Auditory Brain, Phonak U. Sumposium, August 8-11, 2007.
18. Temporal and Evoked Potential Procedures in the Evaluation and Treatment of (C)APD, Illinois Academy of Audiology, Chicago, IL, January 26, 2007.
19. Evidenced Based Research and Practical Applications for Clinicians and Educators, JFK Medical Center, Edison, NJ, October 2006.
20. New Approaches to Diagnosis and Management of CAPD, Dayton, Ohio, September 2006.
21. Auditory Evoked Potentials, Maryland Academy of Audiology, May 2006.
22. New Approaches to Central Auditory Processing Disorders, Florida Speech Language and Hearing Association, May 2006.
23. Cortical Potentials, Maryland Academy of Audiology, Ocean City, MD, September 23-24, 2005.
24. Advances in Central Auditory Processing Diagnosis and Management, Massachusetts Speech and Hearing Association, Worcester, MA, September 30, 2005.

108. Central Auditory Disorders and Hearing Aids. Peripheral and Central Factors in Rehabilitation Conference, University of Miami, Key Biscayne, FL, January 16-18, 1992.
109. Auditory Central Nervous System: Factors in Habilitation. Peripheral and Central Factors in Rehabilitation Conference, University of Miami, Key Biscayne, FL, January 16-18, 1992.
110. Effect of Various Tester Constraints Upon the Dichotic Digit Task. American Speech and Hearing Association Convention, Atlanta, GA, November 22, 1991.
111. Otoacoustic Emissions and the Efferent System. Cleveland Clinic Lecture, Department of Otolaryngology and Communicative Disorders, Cleveland, OH, June 25, 1991.

112. Hearing Processes That Tell Us About the Brain. The University of Rhode Island, Kingston, RI, April 4, 1991.
113. Advances in Neuroaudiology: Acoustic Emissions and Event Related Potentials. G. Paul Moore Symposium, University of Florida, Gainesville, FL, March 25, 1991.
114. Current Concepts in the Habilitation of Children with Auditory Processing Deficits. Tennessee Chapter of the Council for Learning Disabilities, Vanderbilt University, Nashville, TN, March 8, 1991.
115. Identification & Classification of Auditory Processing Deficits in Learning Disabled Children. Tennessee Chapter of the Council for Learning Disabilities, Vanderbilt University, Nashville, TN, March 8, 1991.
116. Management of the Child with CAPD. Missouri Speech-Language-Hearing Association, St. Louis, MO, March 7, 1991.
117. Neuroauditory Facets of Central Processing Disorders. Missouri Speech-Language-Hearing Association, St. Louis, MO, March 7, 1991.
118. Otoacoustic Emissions: Clinical Perspectives. Missouri Speech-Language-Hearing Association, St. Louis, MO, March 7, 1991.
119. Site of Lesion Testing. Visiting Professor, Dalhousie University, Department of Communication Disorders, Halifax, Nova Scotia, February 27-March 1, 1991.
120. Selected Topics in Electrophysiological Assessment. New Jersey Speech and Hearing Association Convention, May 5, 1990.
121. Practical Clinical Applications of the ABR and MLR. Academy of Dispensing Audiologists, Hilton Head, SC, May 25, 1990.
122. University of New Hampshire Symposium on Central Auditory Assessment and Rehabilitation, Durham, NH, May 1, 1990.
123. Concepts in the Habilitation of Children with Central Auditory Processing Disorders. PA Speech and Hearing Association Annual Meeting, Pittsburgh, PA, April 6, 1990.
124. Functional Neuroanatomy of the Auditory System: A Clinical Perspective. Pennsylvania Speech and Hearing Association Annual Meeting, Pittsburgh, PA, April 6, 1990.
125. Selected Aspects of Neuroaudiology. Texas Speech and Hearing Annual Convention, Dallas, TX, March 31, 1990.
126. Central Auditory Processing: Current Concepts in Assessment and Management of Children. Ohio Speech and Hearing Convention, Toledo, OH, March 23, 1990.
127. Neuroaudiology. Washington Speech & Hearing Association, Seattle, WA, February 24, 1990.
128. Central Auditory Processing Problems in School Age Children. 2nd New England Joint Conference on Specific Learning Disabilities, Brocton, MA, October 28, 1989.
129. Neuro-otologic and Neuroaudiological Aspects of the Auditory Brainstem Response, Hershey Medical Center, Hershey, PA, October 21, 1989.
130. ASHA ABR Conference (five lectures). Boy's Town, Omaha, NE, May 25-26, 1989.

131. The Neuroanatomy-Neuroaudiology Connecticut. St. Joseph's Hospital, Annual Neuroaudiology Symposium, April 28, 1989.
132. Assessment of Central Auditory Processing in Children. Minnesota Speech-Language-Hearing Association Annual Convention, April 8, 1989.
133. The Middle Latency Evoked Response and P-300. Minnesota Speech-Language-Hearing Association Annual Convention, April 7, 1989.
134. Anatomy and Physiology of the Central Auditory Nervous System. Minnesota Speech-Language-Hearing Association Annual Convention, April 7, 1989.
135. Rehabilitative Strategies for Individuals with Auditory Processing Deficits. Oregon Speech and Hearing Association Annual Conference, Portland, OR, April 1, 1989.
136. New Perspectives in Neuroaudiology. Oregon Speech and Hearing Association Annual Conference, Portland, OR, April 1, 1989.
137. Electrophysiological Findings and Confirmed Central Nervous System Lesions. Cedars Medical Center Symposium, Miami, FL, March 23-24, 1989.
138. Theoretical and Practical Habilitative Strategies for Central Auditory Processing Deficits in Children. (Keynote Speaker). Maryland Speech and Hearing Association Annual Convention, Frederick, MD, March 4, 1989.
139. Formulation of a Neuroaudiology Test Battery for Adults and Children. (Keynote Speaker). Maryland Speech & Hearing Association Annual Convention, Frederick, MD, March 4, 1989.
140. New Perspectives of Neuroaudiology. Mid-South Conference, Memphis, TN, March 3, 1989.
141. Posterior Fossa Tumors in Patients with Normal Puretone Sensitivity. Wayne State University School of Medicine, Detroit, MI, July, 1988.
142. ABR in the Assessment of Eighth Nerve and Brainstem Lesions: An Overview. Practical Applications of the Auditory Brainstem Response. Kresge Hearing Research Laboratory, New Orleans, LA, June 12, 1988.
143. Maturation of Auditory Evoked Potentials: Considerations in the Evaluation of Children. Practical Applications of the Auditory Brainstem Response. Kresge Hearing Research Laboratory, New Orleans, LA, June 12, 1988.
144. Auditory Processing: Its Neuroanatomical & Physiological Basis. The New Jersey Speech-Language-Hearing Association 1988 Convention, May 6, 1988.
145. Evaluation of the Auditory Cortex. Indiana Speech and Hearing Association, April 16, 1988.
146. Neuropathologic Etiologies in Processing Deficits in Children. Michigan Speech-Language-Hearing Association Conference, March 18, 1988.
147. Enhancing Our Professional Status Through Knowledge and Communication. (Keynote Address). Michigan Speech-Language-Hearing Association Conference, March 17, 1988.

148. New Aspects of Central Auditory Evaluations in Children. Speech-Language-Hearing Association 28th Annual Convention, February 27, 1988.
149. Functional Neuroanatomy of the Auditory System/Contemporary Aspects of Site of Lesion Determination. Illinois Speech-Language-Hearing Association 28th Annual Convention, February 26, 1988.
150. Strategies in Auditory Evoked Potential Assessment: Eighth Nerve to Cortex. The Ontario Association of Speech-Language Pathologists and Audiologists Convention, October 1987.
151. Selected Topics in Remediation and Evaluation of Central Auditory Dysfunction in Children. Seminar in Pediatric Audiology: Issues in Assessment and Management sponsored by the Bay Area Audiology Group, Oakland, CA, September 26, 1987.
152. Evoked Potentials and Behavioral Tests in Children: Neuromaturational Factors. Seminar in Pediatric Audiology: Issues in Assessment and Management sponsored by the Bay Area Audiology Group, Oakland, CA, September 26, 1987.
153. Maturation Aspects of the Auditory System. Ear International, September 25, 1987.
154. Central Auditory Nervous System: Functional Anatomy and Clinical Assessment. American Academy of Otolaryngology-Head & Neck Surgery Course, September 22, 1987.
155. Current Perspectives in Clinical Audiology Symposium. Workshops: (a) Auditory Neuroanatomy; (b) Auditory Brainstem Response in Differential Applications; (c) Central Auditory Tests for Adults. Carle Clinic, Urbana, IL, September 4, 1987.
156. Neuroaudiological Aspects of Hearing Assessment. Glenrose Hospital, Edmonton, Alberta, Canada, July 15-16, 1987.
157. Diagnosis and Rehabilitation in Children with Central Auditory Dysfunction. New Jersey Speech-Language-Hearing Association Convention 25th Anniversary, Somerset, NJ, April 30, 1987.
158. New Trends and Advances in Neuro-audiology. St. Joseph's Hospital, Savannah, GA, April 24-26, 1987.
159. Selected Issues in Auditory Neuropathology: Assessment and Remediation of Central Auditory Disorders. Hershey Medical Center, Hershey, PA, June 19, 1987.
160. Audiological Applications in Brain Injuries. (Audiology and Evoked Potentials Training Workshop). 3rd National Traumatic Brain Injury Symposium, University of Maryland, Baltimore, MD, March 26, 1987.
161. Central Auditory Processing Disorders in Adults. VA Medical Center, North Chicago, IL, March 12, 1987.
162. New Perspectives in Central Auditory Assessment. Ohio Speech and Hearing Association Convention, Columbus, OH, March 6-7, 1987.
163. Advances in the Diagnosis and Treatment of Children with Central Auditory Processing Disorders. 17th Annual Speech, Language, and Hearing Symposium, East Carolina University, Greenville, NC, February 13, 1987.

164. Maturity and Evaluation of the Neuroauditory System in Children. Oklahoma Health Science Center, Oklahoma City, OK, December 3, 1986.
165. Auditory Brainstem Response and Symptomatological Characteristics of Patients with Acoustic Neuromas. Department of Otolaryngology, University of Washington School of Medicine, Seattle, WA, August 21, 1986.
166. Recent Advances in Central Auditory Assessment. Visiting Professor, Western Washington University, Bellingham, WA, August 1986.
167. Update: Auditory Brainstem Response in Site of Lesion Testing. Children's Hospital and Rehabilitation Center, Utica, NY, July 12, 1986.
168. Central Auditory Nervous System: Neuro-anatomy and Clinical Correlates. Brooklyn Veterans Administration Hospital, June 1986.
169. Strategies in Auditory Evoked Potential Assessment: VIII Nerve to Cortex. Canadian Speech-Language-Hearing Association, Winnipeg, Canada, May 24, 1986.
170. Neuro-audiological Evaluation: New Perspectives. Florida Language, Speech, and Hearing Association, Jacksonville, FL, May 1986.
171. New Perspectives on Central Auditory Evaluation. North Carolina Speech, Hearing, and Language Association, Charlotte, NC, March 1986.
172. The Auditory Brainstem Response in VIII Nerve and Low Brainstem Lesions. North Carolina Speech, Hearing and Language Association, Charlotte, NC, March 1986.
173. Construction and Application of a Central Auditory Test Battery. Audiological Research Association Convention, Gatlinburg, TN, February 14, 1986.
174. Advances in the Evaluation of Central Auditory Dysfunction. Kansas Speech-Language-Hearing Association Annual Meeting, Topeka, KS, October 25, 1985.
175. Central Auditory Assessment: Combining Electrophysiological and Psychophysical Procedures. Connecticut Speech-Language-Hearing Association Annual Meeting, New Haven, CT, October 18, 1985.
176. Auditory Evoked Potentials. Nicolet Biomedical Instruments, Memphis, TN, October 5, 1985.
177. Auditory Evoked Potentials and Electroneurography. Nicolet Biomedical Instruments. Framingham, MA, September 13-14, 1985.
178. Consultant on ABR, St. John Regional Hospital. St. John, New Brunswick, Canada, June 20-21, 1985.
179. Application of ABR and Auditory Nerve and Brainstem Lesions. Massachusetts Speech-Language-Hearing Association Conference, Mansfield, MA, May 3-4, 1985.
180. Auditory Processing: Test Battery Construction and Implementation. Massachusetts Speech-Language-Hearing Association Conference, Mansfield, MA, May 3-4, 1985.
181. Selected Aspects in Central Dysfunction. (Symposium). The Audiology Service, Letterman Army Medical Center, Presidio of San Francisco, CA, November 15, 1984.

182. Strategies for Clinical Interpretation of the Auditory Brainstem Response. Clinical Aspects of Auditory Brainstem Response Testing presented by Nicolet Biomedical, Burlington, MA, November 3, 1984.
183. Team Management of Central Auditory Processing and Language Disorders in Learning Disabilities. University of Cincinnati Symposium, Cincinnati, OH, October 22-24, 1984.
184. Physiological Bases for Auditory Processing Disorders, Audiological Assessment of Auditory Processing Disorders, Approaches to Rehabilitation of Auditory Processing Disorders. (Symposium). Department of Communication Services, Woodrow Wilson Rehabilitation Center Conference, and The Speech and Hearing Association of Virginia, Fishersville, VA, September 28-29, 1984.
185. Some Aspects of the Auditory Brainstem Response and Acoustic Neuromas. University of Virginia Medical Center Symposium, Charlottesville, VA, September 27, 1984.
186. Central Auditory Processing Disorders. George Washington University Speech Language Center Conference, Washington, DC, September 13-14, 1984.
187. Meniere's Disease and Perilymphatic Fistulas: Physiologic, Diagnostic and Surgical Controversies. (a) ENG and ABR presented with Karen Kibbe, M.A.; (b) Posterior Fossa Vestibular Nerve Section with ABR Monitoring presented with Dudley Weider, M.D. (Program Co-Chairman with Dudley Weider, M.D.), Dartmouth College, July 25-28, 1984.
188. Temporal Processing in Central Auditory Disorders. Western New York Speech, Language, and Hearing Association Meeting, Niagara Falls, NY, May 26, 1984.
189. The Effects of Partial and Complete Commissurotomy on Central Auditory Function. Vlieme Symposium International, Montreal, Canada, May 18, 1984.
190. ABR: Uses and Abuses in Site of Lesion Testing. New York Speech and Hearing Convention, Monticello, NY, May 1, 1984.
191. Application of ABR in Defining Eighth Nerve Tumors. Colorado Speech, Language, and Hearing Convention, Copper Mountain, CO, April 28, 1984.
192. Interhemispheric Auditory Processing Deficits in Children and Related Issues. Colorado Speech, Language, and Hearing Convention, Copper Mountain, CO, April 27, 1984.
193. Selected Topics in Auditory Processing Deficits in LD Children. Orton Society Meeting, Manchester, NH, April 14, 1984.
194. Interhemispheric Processing Deficits in Adults and Children. California Speech-Language and Hearing Convention, Palo Alto, CA, April 6, 1984.
195. Diagnostic Audiology: Present Status and Future Directions. California Speech-Language and Hearing Convention, Palo Alto, CA, April 6, 1984.
196. The Effects of Commissurotomy on Higher Auditory Function. Neuroscience/Otolaryngology Seminar, Wayne State University Medical School, Detroit, MI, April 2, 1984.
197. Fundamentals of ABR (with Karen Gollegly). Boston, MA, March 3, 1984.

198. Central Auditory Processing Deficits in Children: Pathological Correlates. 14th Annual Mid-South Conference on Communicative Disorders, Memphis, TN, February 23, 1984.
199. Clinical Applications of Evoked Potentials Seminar. Nicolet, Saddlebrook, NJ, October 8, 1983.
200. Clinical Applications of Evoked Potentials in Neurology. Nicolet, Boston, MA, September 17, 1983.
201. Clinical Applications of Auditory Evoked Potentials. Framingham, MA, August 26-27, 1983.
202. Auditory Cortex and Interhemispheric Dysfunction in Adults and Children. Eastern Maine Medical Center, Bangor, ME, May 1983.
203. The Use of Nonspeech Tests in Central Auditory Assessment. McGill University, Montreal, Canada, April 1983.
204. Dichotic Listening and Other Tests Measuring Central Auditory Function in Split-Brain Patients. Department of Neurology, Notre Dame Hospital, Montreal, Canada, April 1983.
205. Assessment and Remediation of Central Auditory/Language Disorders. A symposium sponsored by the Univ. of Cincinnati Medical Center, Cincinnati, OH, March 28-30, 1983.
206. Current Questions in Clinical Audiology. Rhode Island Hospital, Providence, RI, February 25, 1983.
207. Fundamentals of ABR and MLR. Nicolet Workshop, Boston, MA, February 19, 1983.
208. Diagnosis and Assessment of Central Auditory Dysfunctions on Patients with Known Pathology and in Children with Learning Difficulties. Genesee Valley Speech and Hearing Association Workshop, State University of New York, Rochester, NY, October 2, 1982.
209. New Diagnostic Measures Using the Auditory Brainstem Response. University of Rochester Medical School, Rochester, NY, October 1, 1982.
210. ABR and Hearing Aid Research: Further Clinical Implications. Symposium entitled "Hearing Aids and Audiological Rehabilitation: Update 1982," Concord, NH, September 10, 1982.
211. The Evaluation of Central Auditory Nervous System: An Overview. Regional Education Medical Conference, VA Medical Center, Fort Howard, MD, September 7-8, 1982.
212. The Neuro-audiological Evaluation. Mid-Maine Medical Center, Colby College, Waterville, ME, July 16-17, 1982.
213. Hearing and the Work Place. Montshire Museum Seminar Series, Hanover, NH, April 29, 1982.
214. Detection of Auditory Problems and Remedial Strategies. Early Childhood Development Symposium, Woodstock, VT, April 29, 1982.
215. Specific Auditory Habilitation Strategies in Education and Audiology. Vergennes Conference on Educational Rehabilitation, Vermont, April 26, 1982.

216. Current Issues in the Assessment and Habilitation of Central Auditory Dysfunction in Adults and Children. New York Speech, Language, and Hearing Institute Annual Convention, Ellenville, NY, April 24, 1982.
217. Central Auditory Processing in Children: Does the Corpus Callosum and Neural Maturation Play a Role? Vanderbilt University School of Medicine, Department of Communication Disorders, April 13, 1982.
218. Selected Aspects of Central Auditory Dysfunction in Adults and Children. Annual Tennessee Speech, Language & Hearing Convention, Nashville, TN, April 16, 1982.
219. Case Studies of Acoustic Neuromas and Related Topics. Dalhousie University, Halifax, Nova Scotia, April 3, 1982.
220. Site of Lesion Testing. Visiting Professor, Dalhousie University, Department of Communication Disorders, Halifax, Nova Scotia, March/April 1982.
221. Central Auditory Dysfunction in Adults and Children. Mercy Hospital, Springfield, MA, November 6, 1981.
